

Advanced Acne Treatment

Facial Care
STEP
2C
EXFOLIATE

OVERVIEW:

When skin needs a little extra revitalizing this leave-on combination treatment of multi-fruit acids and Hyaluronic acid is perfectly suited for the daily management of mature, thick, sun damaged, oily or acne-prone skin.

THE HYLUNIA ADVANTAGE:

FEATURES:	BENEFITS:	ADVANTAGES:
Olive leaf , date, wasabi, fig extracts and MSM (methyl sufonyl methane) (NO PRESERVATIVE)	Inhibits microbial growth: preserves against microbial proliferation.	Replaces commonly used potentially toxic and sensitizing preservatives and minimizes acne infection.
Multi Fruit Acids: Sugar Maple, Sugar Cane, Bilberry, Lemon, & Lime.	Eliminates dead cells, allowing sebum to escape. Promotes cellular renewal. Unclogs and refines pores reducing comedones (black and white heads) and acne	Immediate exfoliation and opening of the plugged sebaceous follicles of the skin. Regular use let oil to drain thus minimizing black and white heads and acne.
L-Carnitine - bêta hydroxyl acid	Helps dissolve the oil remove from the sebaceous follicle without the irritating and causing ringing in the ear like salicylic acid.	Improves overall efficacy of acne management.
<i>Curcubita pepo</i> Pumpkin Seed Peptide, Green tea extract, Turmeric Concentrate	curcubitine, inhibits inflammatory process and help to heal acne.	in its anti-inflammatory property, centipeda cunninghamii and other extracts minimizes inflammation and thus help to heal infectious acne
Hyaluronic Acid	Forms a continuous film on skin's surface, retaining natural moisture and allowing vital cellular air interchange	Soaks the stratum corneum keeping it hydrated. Flushes the oil from the sebaceous follicle to prevent any blackhead or whitehead formations. Hyaluronic Acid will help to heal the infected acne.
Free of toxic preservatives like paraben, formaldehyde, grape fruit seed extract, fragrance, dyes, lanolin, mineral oil, alcohol. Cruelty free.	Non-irritating and safe to use for long period of time without worrying about cancer.	Ideal for even the most sensitive and problematic skin conditions. Continuous inflammation caused by preservatives, fragrance, lanolin, dye. Thus, stopping the healing process of infectious acne.
